

The Institute of Interim Management's 2021 survey is open!!!

[TAKE THE SURVEY](#)

Every year, the [Institute of Interim Management](#) invites interim professional from all sectors and specialisms to take part in their annual survey, with the finding of the survey published in July. The resulting report offers interesting insight into the contemporary interim landscape including information on role types, gender split, location, rates, etc, as well as future market predictions, information on IR35, and the ranking of Interim Service Providers (ISPs).

If you have not seen the previous reports, please look at last year's report [HERE](#)

The information about ISPs helps provide our industry with valued feedback. Here at Veredus we are always looking to improve our services and the findings of the survey help us understand how successful we are being on our continuous improvement journey. We welcome your feedback.

As with any survey, the more interim professionals taking part in the survey, the more representative and insightful the report will be.

We appreciate that everyone has busy lives, but we do hope you can find a few minutes to complete the survey as the outputs are interesting, relevant, and beneficial for all working in the interim sector.

Thank you in advance for your time.
